

Enhance Your Business

Granite Mobility Voice

Granite can simplify your technology platform with efficient, advanced and economical solutions.

Our Value Added Services Include:

Managed Services

We monitor your network 24/7/365.

Voice and Data Service

Granite offers a full range of solutions to meet all your needs.

Network Integration Services

Our technicians support all of your cabling and inside wiring needs.

Complete Coverage

The Granite footprint is geographically limitless.

One Source, One Bill

As your single point of contact, we package all services into one invoice.

Partnerships and Networks

Our partnerships and network options streamline services for efficiency.

Choose the Option that Best Meets Your Needs

Shared

- Choose data plan and assign number of users
- Flexibility to assign multiple devices to different plans

Pooled

- Assign a data plan to each device
- Pooling available across both Sprint and AT&T regardless of the data plan selected

Both shared and pooled plans include the following:

Available with a variety of smart phones and tablets

Provided by the reliable 4G network of AT&T and Sprint

Fixed MRC for device and associated plans

Plans range from **1GB to 200GB**

Features and Benefits

- We offer the option to use your existing devices, "BYOD" or buy new equipment directly from Granite
- Our flexible platform allows you to convert existing services or order new services to either Sprint or AT&T's network

*Specific rules and regulations apply
